THE HYBRID GYROPLANE FOR AIR AND ROAD

GyroMotion

AutoGyro
Enjoy the difference

ENJOY YOUR JOURNEY

TRAVEL HAS NEVER BEEN EASIER.

Have fun in life. Make travelling fast and simple. Park at home, go wherever you need – by air or on the road. GyroMotion is fast and safe to fly and drive.

GyroMotion uses electric energy on the road, without any engine noise or emissions, helping to reduce your environmental impact.

FLY THE SKY

FLY DIRECT WITHOUT ANY DETOURS.

The shortest distance between you and your destination is a straight line. Traffic? You can simply skip over it! Just enjoy the magnificent view and your flight.

GyroMotion combines the unique flying characteristics of a gyroplane with a road based vehicle.

RIDE THE ROAD

TO FLY AND DRIVE IN THE SAME VEHICLE IS A DREAM COME TRUE FOR ANY PILOT.

Can't travel by air? Take the road instead – with GyroMotion you will be free to choose. Stop for fuel at a petrol station and then just fly up and over the traffic again.
